Warm Chain of Support for Breastfeeding: The Warm Chain places the mother-baby dyad at the core and follows the first 1,000 days timeline. It strives to link different actors by coordinating efforts at all levels to provide a continuum of care. Each actor or link in the Warm Chain may already be part of an existing initiative. With consistent messages and proper referral systems throughout the warm chain, the mother-baby dyad will benefit from ongoing support and skilled assistance. All mothers are then empowered with a more satisfying and effective breastfeeding experience.

Protect, promote and support breastfeeding through the Warm Chain
