

**AT THE EVE OF THE HEAD OF STATES MEETING AT THE UNITED NATIONS  
SEPTEMBER 10TH 2005  
GLOBAL DAY OF MOBILISATION AGAINST POVERTY, WAR AND  
UNILATERALISM**

We the people, for a new just, peaceful and democratic world order.

We, representatives of global civil society meeting in Porto Alegre at the **5th World Social Forum**, are launching an urgent appeal to democratize and strengthen the United Nations and build a new just, peaceful and democratic world order.

Poverty is growing. Wars and conflicts are constantly occurring. The gap between the rich and poor is increasing. Fundamental human rights and international laws are often ignored. Use of military power is again the basis of international relations. Militarist national security doctrines continue to dominate, despite universal support for human security that encompasses the economic, social and political needs of the people. People do not believe anymore in the capacity of the market to solve social problems, but it continues to be promoted by unaccountable institutions.

The UN that was established sixty years ago to ban war, eradicate poverty and social injustice is now under attack, weakened and marginalised diminishing its historical role for peace, development, social and international justice in world governance. Strong unilateralism and uncontrolled neo-liberal globalisation are sidelining the only "common house" of humanity. The macro-economic functions of the United Nations (UN) have been taken away by the Bretton Woods institutions. A radical change of the International Monetary Fund (IMF), World Bank, World Trade Organisation (WTO) and associated institutions, and their incorporation in the UN system is imperative.

The UN that we want is a UN of Peoples, not a UN of states. Only a comprehensive, radical and transparent reform of the UN will enable this system to fulfil its historical role for peace, development and international democratization. The future of the UN should be everybody's concern. In an increasingly interdependent world we cannot expect to find solutions for our problems that are not global solutions. There are no human rights without international institutions able to enforce them.

A sustained mobilisation including the enforcing of the accountability and transparency of our governments and member states of the UN, is absolutely crucial. This should be a constituent process involving all possible actors in civil society, local authorities and parliaments. Priority must be given to ensure due representation of region, race, class, gender and all social pluralities in this process.

**2005** will be a crucial year for the future of international democracy and of the United Nations. On September 14-16 all heads of States of the world will be called to decide on the reform of the UN and to reaffirm and implement their commitments to eradicate poverty and to achieve, at least, the Millennium Development Goals (MDG). This agenda is too important to leave it completely in the hands of governments, themselves mostly responsible for the current critical situation of humanity and for the terrible crisis of the UN.

As a first step, we invite all women and men, all movements, all civil society organisations, to mobilise to resolve this critical situation, and to organise on September 10th 2005 - at the eve of the head of States meeting at the UN - together with the Global Call to Action Against Poverty, a major Global Day of Mobilisation For a New World Order Against Poverty, War and Unilateralism, For Economic and Social Justice, Peace and Democracy.

In order to build an open, just, peaceful and democratic world order we commit ourselves to raise public awareness, to address our governments and to continue networking and promoting an open debate towards the realization of specific common goals.
